Controls and buyer verification

Playback	Single tap play/pause; double tap right/left for next/previous track
Calls	Single tap answer/end; double tap an incoming call to reject
Voice assistant	Press left or right for three seconds
Mode switch	Triple tap to change between game mode and music mode
Project checks	Confirm latency, controls, lighting, operating time, colors, branding and packaging on the approved sample

Source and verification: Specifications are taken from the user-supplied G58 Chinese-English manual. The manual notes that product parameters may vary by model, usage and environment. Final MOQ, price, color, packaging, lead time and model-specific compliance files must be confirmed before production.
