Earbud battery	35 mAh per earbud
Charging case battery	300 mAh
Catalog-listed playback	More than 5 hours
Charging port	USB-C
Catalog colors	Steel and gray

Buyer verification checklist

01 **Fit and retention:** test multiple ear shapes during the intended use scenario.

02 **Sound and leakage:** compare speech, bass balance and leakage at consistent volume.

03 **Calls and wind:** record calls in office, street and wind conditions.

04 **Material and finish:** verify the metal-build description, coating, colors and cosmetic tolerances on the production-intent sample.

05 **Commercial scope:** confirm branding, package, tooling, exclusivity, MOQ, lead time and applicable market documents for the selected project.

REQUEST A MODEL-SPECIFIC REVIEW

Share model X55, estimated quantity, destination market, target timing and required logo, color, packaging or tooling scope.
